PROFILE

Product and digital designer with experience across websites, digital products, and marketing pages. I work from understanding user and business needs through research, design, feedback, and implementation. I use Figma and AI tools to turn ideas into working websites, and have experience leading design work and supporting other designers.

SKILLS & TOOLS

UX/UI design, responsive websites, user research, usability testing, wireframes, prototypes, design systems, developer handoff, and HTML/CSS basics.

Tools: Figma, Figma Make, Claude, Sketch, and Miro. AI-assisted design and website implementation.

DESIGN EXPERIENCE

Independent Client Projects | Product & Website Designer | 2025-Present

- Design and build new websites and redesign existing sites to improve clarity, navigation, and usability.
- Work with clients to understand their company, products, audience, and website goals.
- Create desktop and mobile experiences and refine designs through client feedback.
- Use Figma, Figma Make, and Claude to explore ideas, design interfaces, and implement working websites.

Wondrfly | Product Designer / Lead Product Designer | Jan 2023-Jan 2026

- Worked across product design and marketing, from user research and interviews to interface design and feedback.
- Independently designed product detail and marketing pages, and adapted the web experience for mobile.
- Improved onboarding and payment flows through research, usability testing, and user feedback.
- Built and maintained a design system to keep interfaces consistent and support developer handoff.
- As Lead Product Designer, organized design tasks, supported other designers, and reviewed their work.

Upwork | UX/UI Designer | Jul 2022-Jan 2023

- Worked with clients to understand their needs and create website and app wireframes and prototypes.
- Gathered user feedback and refined designs to make them clearer and easier to use.

ADDITIONAL EXPERIENCE

Omnee | Home Documentation & 3D Capture Specialist | 2026-Present

- Capture 2D photos and 3D scans of new homes before owners receive their keys.
- Send photos and 3D scans to the Omnee team, who upload them to the homeowner app.
- Apply feedback from the Omnee team to improve the quality of the documentation.

Head Volleyball Coach | 2020-Present

- Plan training sessions, coach athletes, and give individual feedback to help players improve.

EDUCATION & TRAINING

BrainStation | User Experience Design Diploma, 2022

University of Alberta | Software Product Management Specialization, 2022

Unicesumar | Bachelor's Degree, English Language and Literature, 2013-2017
